

What kind of America
are we leaving
our children?

Americans of every race,
religion, Democrat, Republican,
or Independent, are concerned
about the country's future.

- Militarization of local police
- Ever-growing concentration of wealth
- Shrinking paychecks
- Fewer job opportunities
- Threatened pensions
- Health care and education costs
- Declining respect for America abroad

How did this happen?

- The power of money in politics.
Both parties
- The power of corporate
controlled media
- The power of propaganda
- Expensive military failures
- Loss of freedoms & privacy
- Absence of accountability

The Lessons of 9/11 for today: **TIME FOR A RESET**

Since the attacks on 9/11
launched the War on Terror,
WE FACE:

- Unaccountable and corrupt officials
- Excessive power & corruption of elites
- Shrinking opportunities
- Growing concentration of wealth
- Money-driven politics
- Mainstream news captive to special interests
- Manipulation of public opinion
- Secrecy, surveillance & censorship
- Bullying & intervention overseas

9/11 ReSet is working toward a civic reawakening based on grassroots Truth Action Groups (TAGs), organized nationally in a bottom-up democratic structure.

9/11 ReSet differs from other antiwar organizations in that it applies the insights gained from scrutiny of events that have been used to justify recent wars.

*“Our lives begin to end
the day we become silent
about things that matter”*

- Dr. Martin Luther King

Through discussion and consensus, Truth Action Groups will develop strategies and projects to wrest control of government from corporations, millionaires, and the Military / Intelligence Complex.

*In every city & township
across America & abroad
are like-minded
citizens who take interest in
the critical need to preserve
the freedoms afforded by
our Constitution
& Bill of Rights.*
